

Simple, Complete Food
Service System™

MicroSale

Successful hotel properties focus on providing the best ***Customer Satisfaction and Hospitality.*** MicroSale helps your staff spend more time with your guests while seamlessly and efficiently integrating with your property management software.

MicroSale's fast and easy-to-manage POS software is designed to help you increase profit margins and focus your attention on customer service.

Feature Highlights

Property Management Interface

MicroSale has the capability to interface to many property management systems in real time. This means that the information imputed into MicroSale will be updated in the PMS on the fly. This will allow you to have the most accurate up to date information on any customer account.

PDA/Tablet Point of Sale

MicroSale has the capability to run on a PDA or Tablet PC to conveniently cater to your patrons' needs. The device gives your staff the freedom to take drink/food orders anywhere on site and even take credit card payments wirelessly. This gives them more time to build customer relationships which leads to better service and opportunities to increase sales.
